Joseph J. Kern

Rose Nursery

The unrivaled hardiness and fragrance of the Roses of Antiquity insures them a place in every garden. Old Roses are almost foolproof, preferring an average soil and resenting complicated dusts and sprays. Their refreshing variety of form fits them for background to your hybrid teas or enriches your herb garden, shrub borders, or estate drives. Our collection of true Old Roses compares favorably with those of the most prominent specialists. Our list of Hybrid Perpetuals comprises over fifty varieties. We give dates for your convenience, as any rose developed before 1900 qualifies as "Old Fashioned" The Older Climbers, Ramblers, and Musks are out of general commerce and offer carefully selected rarities to delight your taste for the unusual. If you are searching for a favorite old rose, let us help you find it.

LIMITED SUPPLY OF THE FOLLOWING VARIETIES

 Tour de Malakof — —Hybrid Centifolia
 Pikes Peak—Bright red, shrub

Ellen Willmott wrote in "The Genus Rosa"
 1914.

Prejudice against a rose which has only one period of blossoming has become a little modified, and the tendency to judge a flower by its beauty, fragrance and good constitution is gaining ground.

"We do not discard our beautiful spring shrubs because they do not blossom again in the autumn, and surely roses which are desirable in every respect should be allowed the same grace".

The acquiring of our collection has been an arduous task and is far from complete.

We welcome the opportunity of obtaining varieties of note, that are not included in this collection.

We wish to extend our sincere thanks to such connoisseurs of old varieties as Howard Tenner, Roy Shepherd, Steve Hamblin and many others, who have so generously contributed their time and knowledge in the compilation of this list.

A FEW OLD VARIETIES THAT SHOULD BE IN YOUR GARDEN
